

**PolyAmerica**

## ILLUSIONS Metallic Color Card

The Decorative Depth Perception Look is Created By Placing the Pigmented Coating at 26 MILS Over a Deep Tone or Black Base Coat

Pigmented products will appear to be different colors in different light sources. The color will appear different under incandescent, fluorescent, mercury vapor, direct sun light or indirect sun light. The Illusion Metallic "Look" is created with PolyAmerica 109 UVB Clear with field added pigment packs over PolyAmerica 109 UVB Pigmented Base Coat (deep tones or black).

201 Chocolate
